Work Experience

Product Designer - Microtec (HRM Project-Based) ***Sep 2025 – Present***

- Led end-to-end HRM design for web and mobile by mapping personnel affairs, automated leave requests, employee contracts, and role-based permissions into intuitive, data-heavy dashboards with complete Arabic/RTL alignment.
- Accelerated development speed by **50%** and ensured accurate design-to-code handoff by building AI-assisted Figma prototypes and design tokens, while conducting direct Design QA on production builds that reduced implementation errors and design inconsistencies.
- Used the Figma MCP to connect design screens directly to the development team, who generated the pages with AI in Cursor and then refined and fine-tuned the output on top of the MCP and AI workflow.

Product Designer Team Leader - Swisstech ***Feb 2025 – Sep 2025***

- Owned end-to-end design for complex BaaS financial flows and wallet dashboards, using data-driven insights to increase platform usability and adoption.
- Architected scalable design systems from scratch and real-time wallet analytics while mapping multi-tier permission matrices and user role flows to simplify repayment tracking for web and mobile FinTech applications.

Product Designer - Culinary Chip ***Dec 2023 – Feb 2025***

Miami Center Website Redesign:

- Conducted a product analysis using Journey Mapping and Google Analytics, identifying a major drop-off at checkout, along with a high bounce rate and weak SEO performance.

- Ran a user survey and gathered insights from the customer service team, which revealed that users perceived the website as outdated, reducing their trust and willingness to complete purchases.
- Designed and tested 3 checkout flows through A/B/C testing on live traffic, then implemented the best-performing flow based on purchase completion rate.
- Modernized the UI, simplified navigation and user flows, Increased user engagement, checkout completion rates and applied SEO-friendly design.

Meal Preparation System:

- Conducted competitor analysis to identify market gaps and streamline complex meal-planning user journeys.
- Designed a unified platform with role-based access control, customizing dashboard views and feature permissions across different user types without fragmenting the system experience.
- Built and maintained scalable design systems and component libraries to support multi-role interfaces

Product Designer (Internship) - MYM ***Sep 2023 – Oct 2023***

- Designed dashboards and mobile apps for educational systems, streamlining processes and enhancing user experiences for **Student Management System** & **Teaching Center System.**
